Dr. Ramzi Nakhle is a Clinical Assistant Professor and Emergency Medicine specialist with expertise in Point-of-Care Ultrasound (POCUS), resuscitation, and trauma care. He is part of the faculty at LAU Gilbert and Rose-Marie Chagoury School of Medicine and holds appointments at both LAU Medical Center – Rizk Hospital and LAU Medical Center – Saint John's Hospital.

Dr. Nakhle earned his M.D. from the LAU Gilbert and Rose-Marie Chagoury School of Medicine in 2016, followed by a four-year residency in Emergency Medicine, where he served as Chief Resident during his final year. He completed an advanced fellowship in Emergency Medicine Ultrasound at McGill University in Montreal, Canada.

He is a certified member of the Canadian Point-of-Care Ultrasound Society (CPOCUS), the Canadian Association of Emergency Physicians (CAEP), and holds the Licentiate of the Medical Council of Canada (LMCC).

Dr. Nakhle is actively involved in clinical teaching, mentoring residents and medical students in emergency care, bedside procedures, and ultrasound-guided interventions. His research interests include emergency preparedness, resuscitation, trauma management, and the application of POCUS in acute care settings.

Dr. Nakhle has authored several peer-reviewed publications in the fields of emergency medicine, point-of-care ultrasound (PoCUS), resuscitation, and disaster medicine.

Through his combination of clinical expertise, teaching, and research, Dr. Nakhle continues to advance emergency medicine practices while improving patient care and outcomes in both local and international contexts.
