

Elsy Jabbour, MD

Clinical Instructor

LAU Medical Center Rizk Hospital

Division Emergency Medicine

Dr. Elsy Jabbour practices at LAU Medical Center-Rizk Hospital as an emergency physician and is involved in improving clinical performance in the hospital through her participation in several committees.

Dr. Jabbour earned her M.D degree in General Medicine in 2010 from the Lebanese University. She completed her residency in Emergency Medicine and Internal Medicine at the American University of Beirut in 2013 and 2016 respectively.

Dr. Jabbour has pursued further qualifications, obtaining an ICTN Certificate in Emergency Department Communication and Competencies in 2014.

Dr. Jabbour's commitment to her professional development is evident through her Master's in Public Healthcare from Ecole des Hautes Etudes en Sante Publique (EHESP) and Paris Iderot University, Paris 7, in 2018; as well as an Executive Master in

in Healthcare Management from ESA Business School, Lebanon, in the same year. Additionally, she holds certificates in Advanced Cardiac Life Support (ACLS), Pediatric Advanced Life Support (PALS), and Advanced Traumatic Life Support (ATLS).

Dr. Jabbour specializes in Internal Medicine and Emergency Medicine, showcasing expertise in both fields.

Dr. Jabbour has achieved significant milestones in academia with several published articles, including "Perception of the Lebanese Adults about Vaccination: A Survey" (*Vaccines* 2023, <https://www.mdpi.com/2076-393X/11/3/621>), "Liver manifestations in COVID-19 patients: A review article" (*World J Clin Cases* 2023), "Snakebites in Lebanon, the painful reality" (*Med Emergency, MJEM* 2020), "The effect of patient death on medical students in the emergency department" (*BMC Medical Education* 2017), "Discharge against medical advice from the Emergency department. Results from a tertiary care hospital in Beirut, Lebanon" (*Medicine* 2016), and "Sepsis in hemodialysis patients" (*BMC Emergency Medicine* 2015). These contributions reflect Dr. Jabbour's dedication to advancing her medical knowledge and research.

Dr. Jabbour is a member of several organizations, including SLMU (Société Libanaise de Médecine d'Urgence) since 2019. Additionally, she contributes to the healthcare community by being a member of the Infection Control Committee, Performance Improvement Committee, and Medical Records Committee at LAU Medical Center-Rizk Hospital, maintaining her involvement since 2019.
