Dr. Pamela Chkaiban Farah is a general pediatrician and clinical instructor at the Lebanese American University Medical Center–Rizk Hospital, as well as a tutor at Saint Joseph University’s Faculty of Medicine. She combines her clinical expertise with a strong dedication to preventive care, medical education, and the holistic wellbeing of children.

Dr. Chkaiban earned her Doctor of Medicine degree and completed her general pediatrics residency at Saint Joseph University and Hôtel-Dieu de France Hospital in Beirut, where she also served as Chief Resident in the Department of Pediatrics. She later pursued specialized training in pediatric dermatology, obtaining a University Diploma from Côte d’Azur University in France.

Throughout her career, Dr. Chkaiban has practiced in several leading Lebanese medical institutions, including Saint Joseph Hospital and Mount Lebanon Hospital, where she continues to provide comprehensive pediatric care. In addition to her hospital work, she operates a private clinic at the Beirut Symposium Center in Horch Tabet, offering preventive and therapeutic pediatric services tailored to each child’s needs.

Dr. Chkaiban’s professional philosophy centers on compassion, education, and prevention. She is deeply committed to promoting vaccination awareness, encouraging healthy child development, and empowering parents through guidance and education. As a faculty member, she plays an active role in mentoring medical students and residents, fostering both clinical excellence and humanistic care.

Beyond her medical practice, Dr. Chkaiban has a passion for music and has directed a choir since 2012, serving as a lead worship singer since 1994. She is fluent in French, English, and Arabic, and continues to engage in community and educational initiatives that reflect her commitment to service and child health advancement.
