Dr. Gabriel Issa El Khoury is a Family Medicine physician with decades of experience in comprehensive primary care, clinical practice, and medical education. He earned his Medical Doctor degree from the Faculté Française de Médecine, graduating in 1980, and went on to complete a three-year residency program in Family Medicine at the American University of Beirut Medical Center. He became a certified specialist in Family Medicine in 1983, establishing a strong foundation in patient-centered, holistic medical care.

Dr. El Khoury's medical career has been characterized by a commitment to continuity of care and a broad-spectrum approach to family medicine. He has provided long-standing clinical services through his private practice in Broummana while also serving patients at LAU Medical Center – Rizk

Hospital. His practice encompasses preventive medicine, chronic disease management, and comprehensive care for individuals and families across all age groups.

An active member of the American Academy of Family Physicians, Dr. El Khoury remains engaged in the advancement of family medicine standards and best practices. His clinical philosophy emphasizes early diagnosis, disease prevention, and personalized care, ensuring that patients receive comprehensive medical attention tailored to their long-term health needs.

Through decades of dedicated practice, Dr. El Khoury has built strong relationships with his patients and community, earning a reputation for clinical reliability, compassionate care, and professional integrity. His continued involvement in both private practice and hospital-based care reflects his enduring commitment to excellence in family medicine and patient wellbeing.
