Dr. Pierre Haibeh is an accomplished obstetrician-gynecologist at LAU Medical Center–Rizk Hospital, with specialized expertise in reproductive medicine, infertility, and maternal-feta health.

Dr. Haibeh, completed his medical degree and specialization in obstetrics and gynecology at the Lebanese University and Université Claude Bernard in Lyon, before pursuing a fellowship in Reproductive Medicine and Infertility at the University of Montreal. In addition to his clinical training, Dr. Haibeh earned a Master's in Public Health and a Clinical Simulation Diploma, equipping him with the tools to advance both patient care and medical education.

Dedicated to improving women's health and well-being, Dr. Haibeh combines patient-centered care with the latest innovations in reproductive and maternal medicine. His clinical expertise encompasses infertility treatments, assisted reproductive technologies, maternal-fetal medicine, and the management of high-risk pregnancies.

In parallel with his clinical work, he is deeply committed to medical education, having taught obstetrics, gynecology, and public health at the Lebanese University, Saint Joseph University, and the Lebanese American University.

Dr. Haibeh is a Board Member of the Lebanese Society of Obstetrics and Gynecology and an active member of several national and international professional societies. His contributions extend beyond clinical practice to research, publications, and international conferences, where he has been recognized for excellence in scientific presentation.

Through his work as both a physician and an educator, Dr. Haibeh continues to play a pivotal role in advancing reproductive medicine and maternal care in Lebanon and beyond.
