LAUMC – Rizk Hospital  
EXT: 5511- 5514  
zeliafrancis@laumcrh.com

Dr. Zelia Francis is a Clinical Endocrinologist and Clinical Assistant Professor of Medicine at the Lebanese American University School of Medicine (LAU-SOM), where she also directs the Endocrinology Fellowship Program at LAUMC-RH.

She delivers comprehensive, patient-centered care across the full range of endocrine disorders, with particular expertise in thyroid cancer, reproductive endocrinology, and metabolic diseases.

Her medical foundation was built through a Doctor of Medicine degree and an Internal Medicine degree, followed by advanced fellowship training in Paris. She completed specialized programs in Endocrinology and Diabetes at Saint Joseph Hospital Foundation, Reproductive Endocrinology at Saint Antoine University.

Hospital, and Endocrine Oncology and Nuclear Medicine at the renowned Gustave-Roussy Institute. She also earned several advanced French university diplomas, including certifications in thyroid ultrasonography, reproductive medicine, and contraception.

Dr. Francis has developed a robust research portfolio focusing on thyroid cancer, reproductive endocrinology, and diabetes. Her work has been published in leading journals. She is the author of several book chapters and an invited speaker at numerous national and international scientific conferences.

As both clinician and educator, Dr. Francis is dedicated to combining evidence-based medicine with compassionate, individualized care. Whether guiding a patient through the complexities of a thyroid cancer diagnosis, managing long-term diabetes, or addressing reproductive health concerns, Dr. Francis seeks to empower patients with knowledge and provide them with the tools needed to achieve better health outcomes.
