

Ali Beydoun, MD

Head of Cardiology Division, Bahman Hospital

Head of Coronary Care Unit (CCU), Bahman Hospital

Consultant Cardiologist, Beydoun Heart Clinic

ali.beydoun@laumcrh.com

Dr. Ali Ahmad Beydoun is a senior consultant cardiologist with more than three decades of experience in cardiovascular medicine. Since 2002, he has served as Head of the Cardiology Division and the Coronary Care Unit at Bahman Hospital, where he oversees the care of critically ill cardiac patients and leads a team dedicated to advanced cardiac management. He is also the founder of the Beydoun Heart Clinic in Beirut, where he provides comprehensive cardiovascular services in a private practice setting.

Dr. Beydoun's education and training span internationally recognized institutions in France and Romania. He earned his Doctor of Medicine degree from Universit   din Craiova, Romania, before pursuing specialized diplomas in Echocardiography, Doppler Cardiology, and Cardiovascular Pathology at the Universit  

de Montpellier, France. He further completed advanced certification in invasive hemodynamic exploration at La R  sidence du Parc in France, equipping him with expertise in both non-invasive and invasive diagnostic techniques.

In his daily clinical practice, Dr. Beydoun combines preventive, diagnostic, and therapeutic cardiology to address the full spectrum of cardiovascular disease. His work encompasses the interpretation and performance of key diagnostic tools, including electrocardiograms, echocardiography, Holter monitoring, stress testing, and hemodynamic assessments. His leadership in the CCU reflects his deep expertise in managing complex cases such as ischemic heart disease, heart failure, arrhythmias, and other critical cardiac conditions.

A committed advocate of continuous learning, Dr. Beydoun regularly attends major international cardiology congresses to remain at the forefront of evolving techniques and treatments. His dedication to education and innovation has also been reflected in his service as a former board member of the Lebanese Society of Cardiology, where he remains an active member.

Throughout his career, Dr. Beydoun has been recognized for his patient-centered approach, clinical excellence, and significant contribution to the development of modern cardiology practice in Lebanon. His mission remains the advancement of cardiovascular health through prevention, early diagnosis, and state-of-the-art therapeutic care.
