

Wael Abdallah, MD, MPH, PhD(c)

Assistant Professor of Obstetrics and Gynecology | Subspecialist in Maternal-Fetal Medicine

wael.abdallah@laumcrh.com

Dr. Wael Abdallah is a subspecialist in Maternal-Fetal Medicine, having completed his advanced fellowship at the University of Montreal, and is an affiliated subspecialist with the Royal College of Physicians and Surgeons of Canada. Alongside his clinical training, he is currently pursuing a PhD in Biomedical Sciences at the University of Montreal, reflecting his strong commitment to academic medicine, innovation, and advancing the science of fetal diagnosis and therapy.

He holds a Doctor of Medicine and a Specialty Diploma in Obstetrics and Gynecology from Saint Joseph University in Beirut, a Master of Public Health (MPH) in Biostatistics and Research Methodology from Université Paris-Saclay, and multiple Inter-University Diplomas from Université Paris Cité, including Fetal Medicine, Maternal Pathologies in Pregnancy, and Obstetrical & Gynecological Ultrasound.

Dr. Abdallah is an active member of leading international societies, including ISUOG (International Society of Ultrasound in Obstetrics and Gynecology), NAFTA Net (North American Fetal Therapy Network), and the Society for Maternal-Fetal Medicine of Quebec (MFMQ), underscoring his continuous involvement in global advancements in Maternal-Fetal Medicine.

Dr. Abdallah's clinical and academic interests encompass the management of high-risk pregnancies, multiple gestations, prenatal ultrasound across all trimesters, fetal growth disorders, and multidisciplinary care for complicated pregnancies. His medical approach emphasizes early and accurate diagnosis, individualized clinical decision-making, and close collaboration among obstetricians, neonatologists, geneticists, and allied specialists.

Beyond his clinical and academic activities, Dr. Abdallah is deeply committed to medical education and humanitarian care. He strongly believes that high-quality maternal and fetal care should be accessible, compassionate, and grounded in respect for patient autonomy and dignity.

Dr. Abdallah currently serves as an Assistant Professor at the Lebanese American University Medical Center (LAUMC), where he contributes to patient care, teaching, and the development of Maternal-Fetal Medicine services. His professional philosophy centers on integrating scientific rigor with human presence, recognizing that trust, communication, and empathy are as essential to medical practice as technology and innovation.
